DETAILED ACTION

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Group A, applicant is required under 35U.S.C. 121 to elect a single disclosed species form following embodiments:

- a. a first embodiment, shown in Figs. 1-4;
- b. a second embodiment, shown in Figs. 5-7;
- c. a third embodiment, shown in Fig. 10;
- d. a fourth embodiment, shown in Fig. 11.

Group B, after elect a single disclosed species form above Group A, applicant is further required under 35 U.S.C. 121 to elect a single disclosed species of other features form following embodiments:

- e. a first item, shown in Figs. 12-14;
- f. a second item, shown in Fig. 17;
- g. a third item, shown in Fig. 18-19.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from the Group A and Group B for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 3637

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Mr. Holman on September 16, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
